

HOOVER® *Laundry*

The Product of Experience.

Environmental concerns are now an integral part of everyday life — our future depends on it. That's why we've been developing a range of appliances that are sympathetic to the environment but at the same time ensuring that the wash result is not compromised.

The new Ecologic range fulfils these demands and offers all the features you require to meet today's washing needs.

So how do we care for the environment?

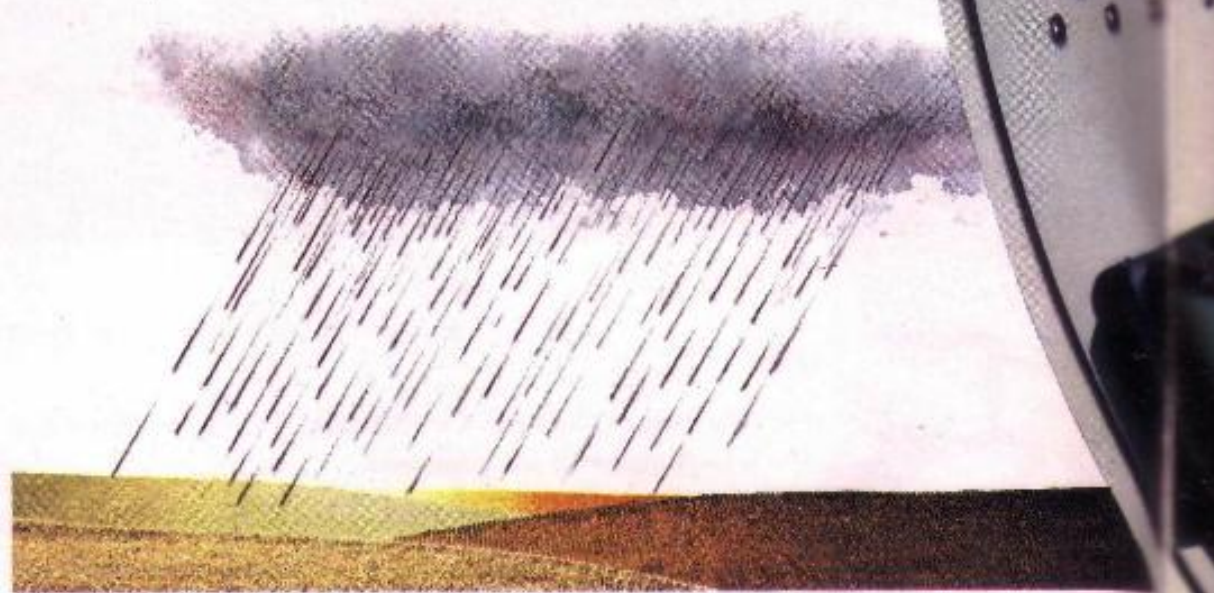

The Hoover Sensorspray system built into every

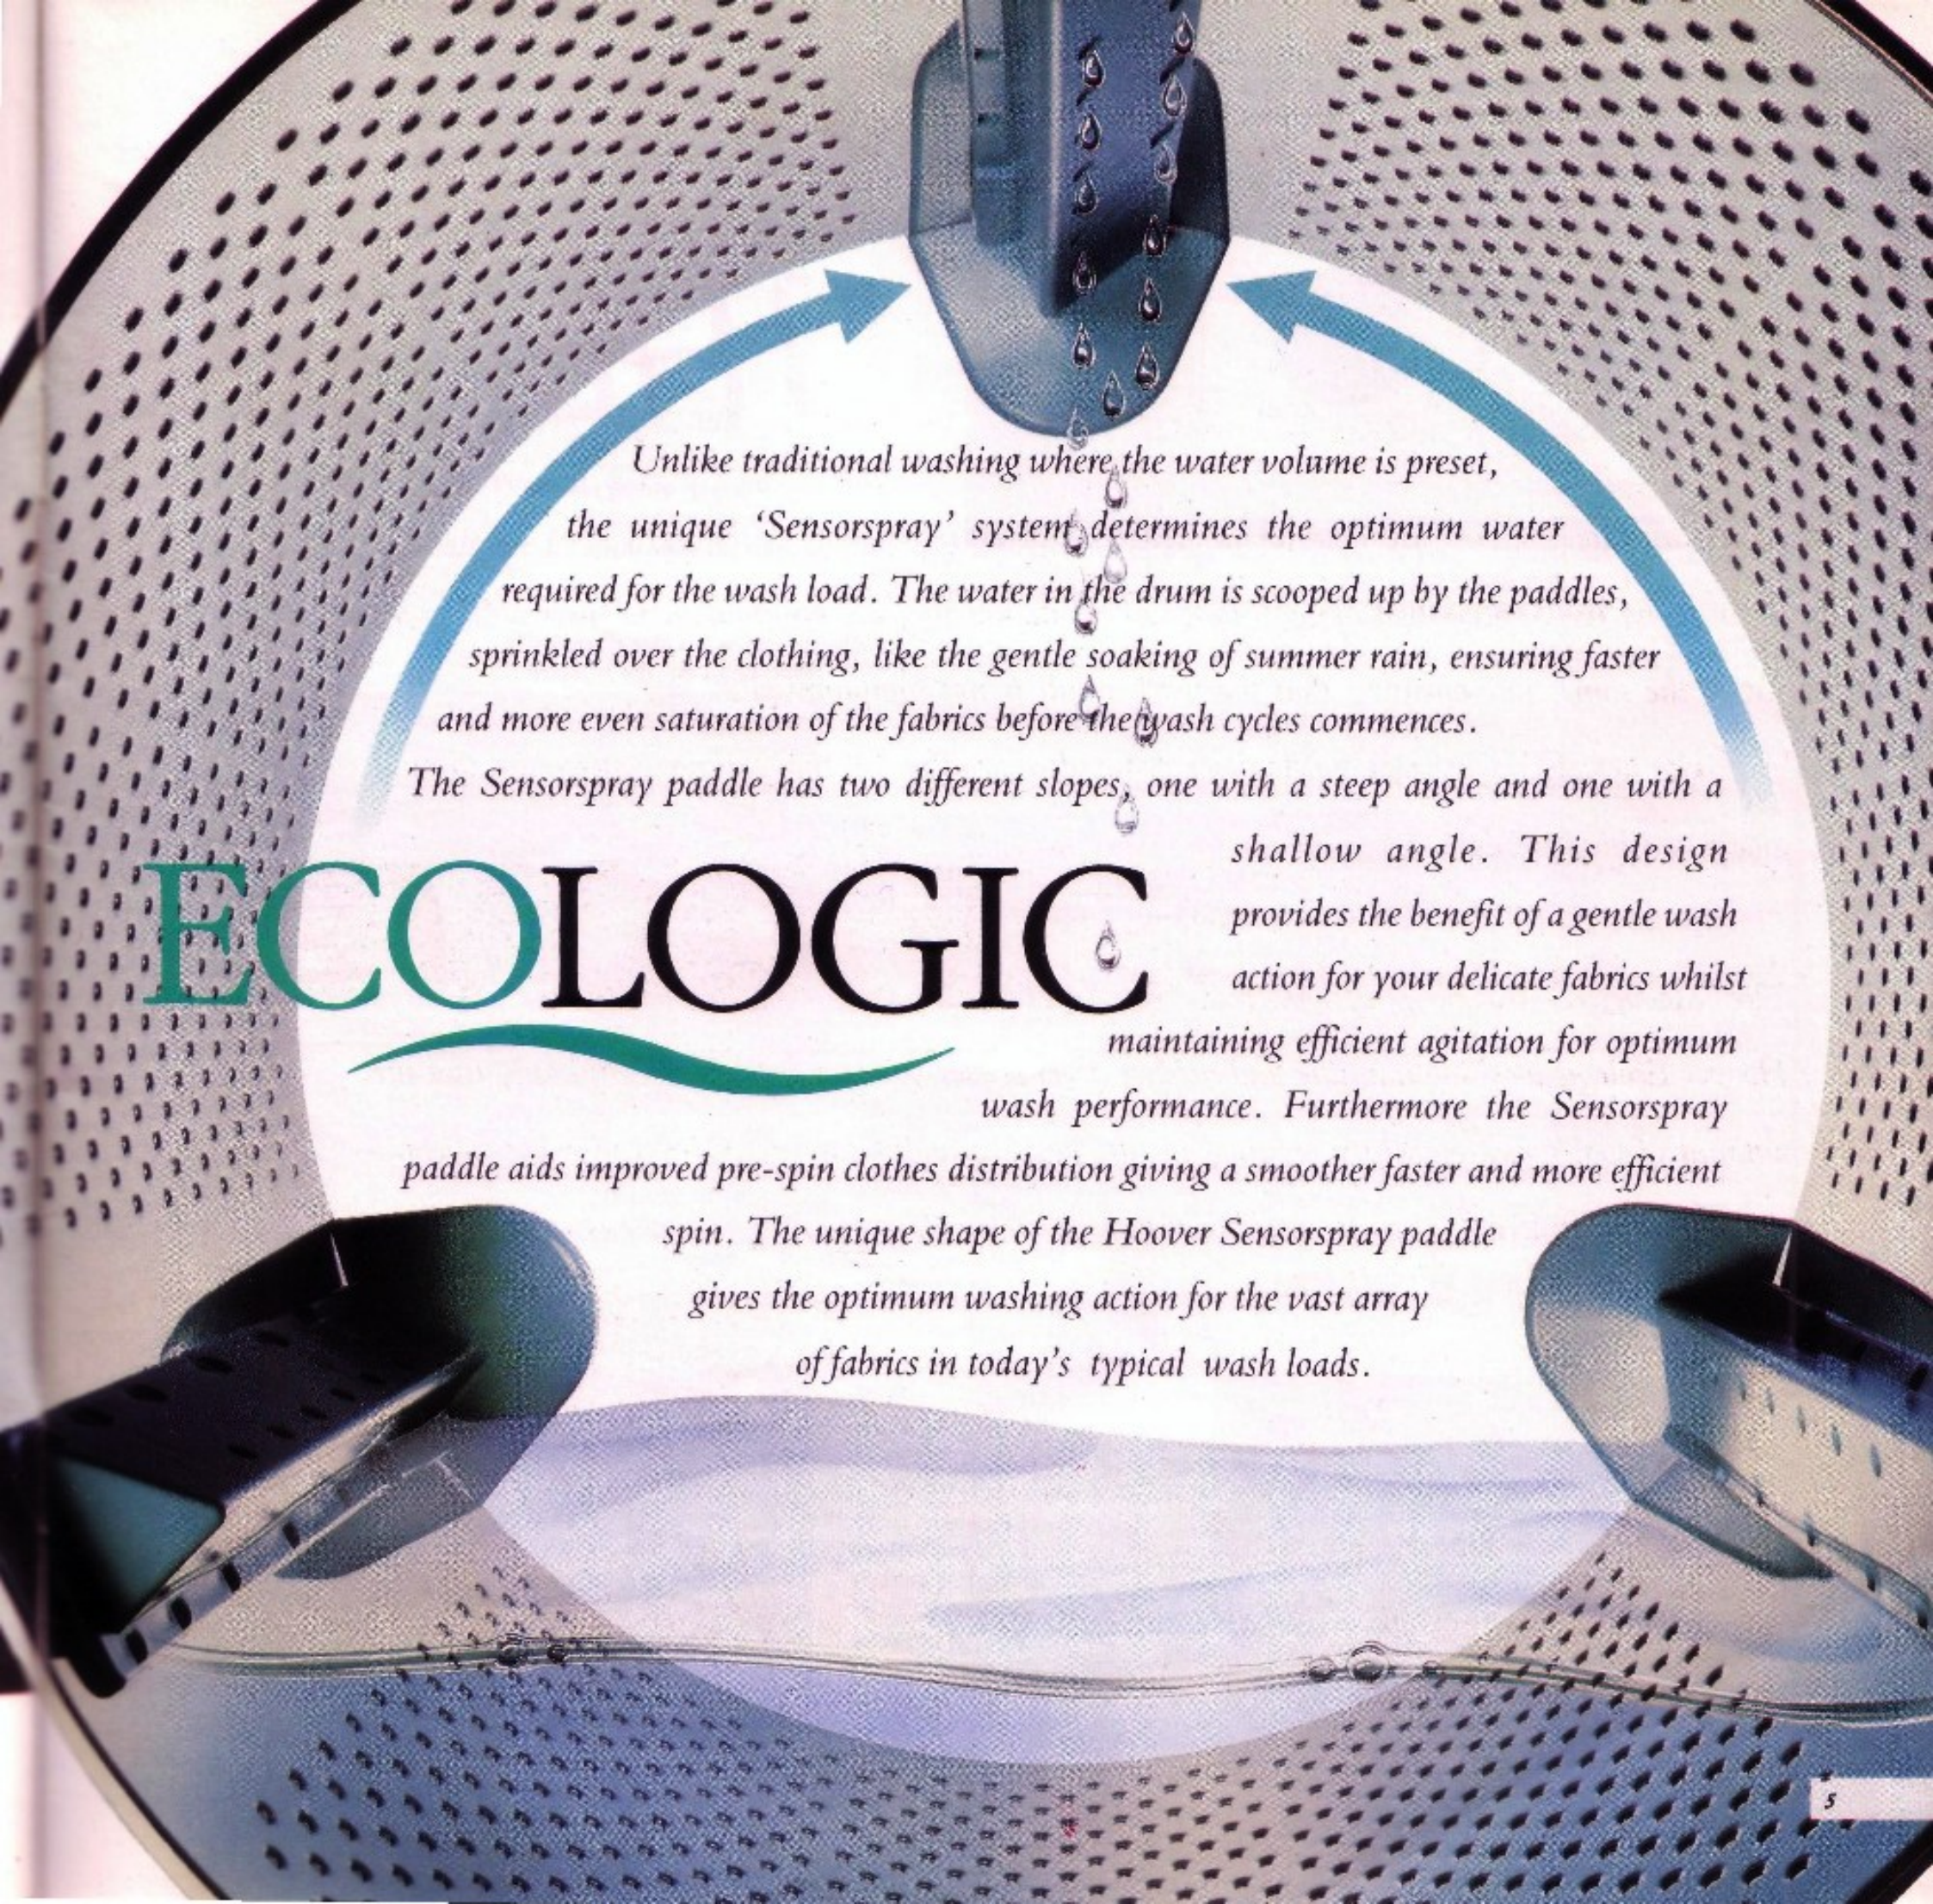

Hoover Ecologic washing machine and washer dryer senses your wash load size and only uses the amount of water and electricity required for the best wash. The net result is a washing machine that's very considerate when it comes to using the world's natural resources.

Sensorspray

Ultimate wash results through revolutionary technology.

HOOVER

Unlike traditional washing where the water volume is preset, the unique 'Sensorspray' system determines the optimum water required for the wash load. The water in the drum is scooped up by the paddles, sprinkled over the clothing, like the gentle soaking of summer rain, ensuring faster and more even saturation of the fabrics before the wash cycles commences.

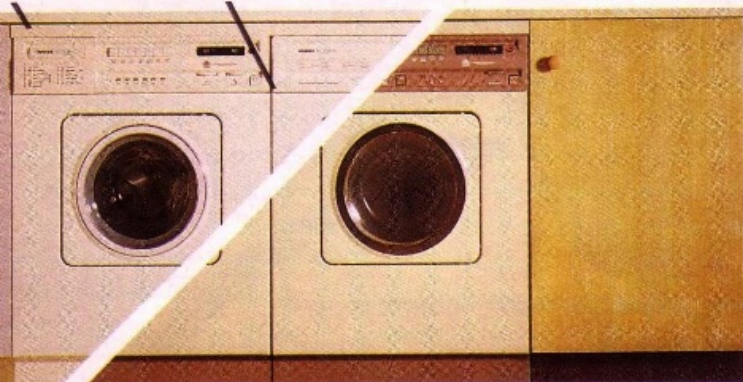

The Sensorspray paddle has two different slopes, one with a steep angle and one with a shallow angle. This design provides the benefit of a gentle wash action for your delicate fabrics whilst maintaining efficient agitation for optimum wash performance. Furthermore the Sensorspray paddle aids improved pre-spin clothes distribution giving a smoother faster and more efficient spin. The unique shape of the Hoover Sensorspray paddle gives the optimum washing action for the vast array of fabrics in today's typical wash loads.

FOUR WHEELS FOR
GREATER MANOEUVRABILITY.

Our large 11lb capacity, energy saving washing machines, versatile space saving washer dryers and efficient tumble dryers have all the programmes and features to cope with today's vast array of laundry tasks — there's a product to suit every lifestyle and every pocket.

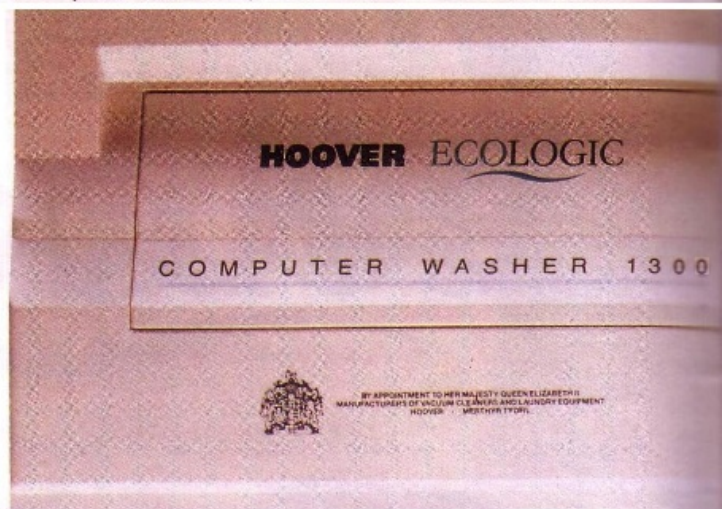

Hoover Ecologic washing machines have a compatible Ecologic tumble dryer for stacking where space is at a premium.

11 lb 5 KG

Large 11 lb (5 kg) washing capacity on all our automatic washing machines and washer dryers.

Hoover facias have been stylishly designed for your ease of use. Braille control panels available on request.

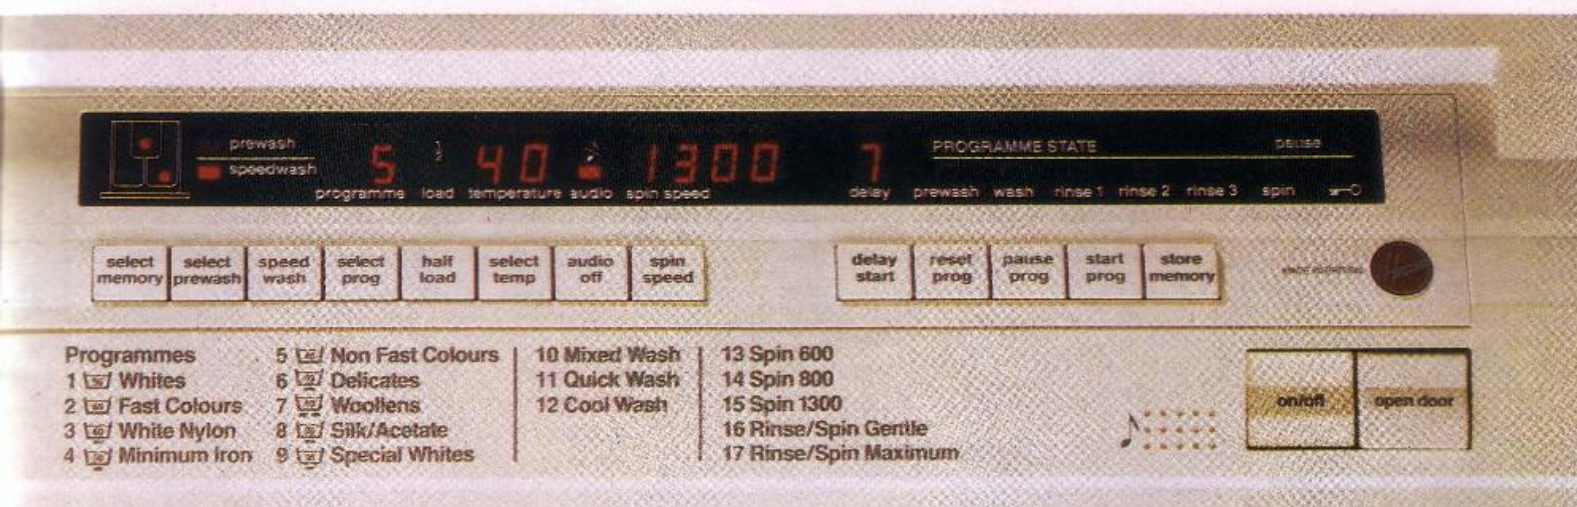

All Hoover Ecologic washers and dryers are fitted with double glazed doors to decrease heat loss, reduce noise and safeguard little fingers.

You'll find these stylish and efficient appliances have a wealth of features to tackle any wash load.

New programmes in keeping with today's lifestyles include Cotton Refresh, Gentle Refresh and Refreshing Wash to revive lightly soiled clothes. On the other hand heavily soiled clothes will benefit from the special Heavy Soil Prewash programme.

Lower wash temperatures and 'Delay Start' for economy, 'Superfast Spin' and 'Quickwash' for convenience, 'Creaseguard' which holds delicate fabrics in water to prevent creasing and 'Autosense' drying which automatically reduces heat as the clothes dry are just a few of the benefits you'll find in the Hoover laundry range.

A3962 COMPUTER ECOLOGIC 1300 CONTROL PANEL

All Hoover washers and dryers are fitted with door release buttons on the facias... preventing small children from pulling the door.

A typical 11 lb load

Hoover recommend Ariel Ultra and Ariel liquid for immaculate cleaning, or if you prefer non-biological detergent, Fairy Automatic. For fabric softening use Lenor in your wash and Bounce in your tumble dryer for lasting freshness.

A3954 ECOLOGIC 1200 CONTROL PANEL

In a hurry and hate hand washing? Then meet 'Speedwash' and 'Supercare' two unique programmes, one dramatically reducing wash time and the other coping with most hand wash items. Add the special anti-flood system and a truly comprehensive range of programmes such as half load

and 'Creaseguard' action and spins from 500 to 1300 rpm and you get the picture.

The 1300 has additional features such as 'Delay Start' and 'Spin delay' and like all Hoover automatics they provide a laminated worktop or can be stacked with an Ecologic dryer.

A3962 COMPUTER ECOLOGIC 1300 CONTROL PANEL

Computer controlled, this one's a really bright spark with a memory to store your most frequently used programmes. You can even complete a wash cycle in about 30 minutes, reduce the spin speed or temperature to suit your precise needs, mix whites and coloureds or cool wash with no heat. So advanced is the touch control technology that it almost thinks for you; it is one of the most economical auto washers to use — so it thinks of the environment too. Clever it may be, but it quite naturally shares the more basic Hoover automatic attributes, with features such as easy 4 wheel manoeuvrability, an anti-boil dry system and of course a self cleaning vortex pump.

Computer *ecologic*

Ward off wash day blues for ever when you wash and dry in one machine. Ecologic Washer Dryers are a space saving dream come true for anyone who yearns to come home to find the laundry beautifully washed and dried. Sharing the same revolutionary Sensorspray system as all our automatics, they'll wash only, dry only or complete the whole wash/dry cycle without you lifting a finger.

Being two products in one, they'll also put an end to those nightmare space problems and of course being condenser models, they need no outside venting. With no compromise on quality of performance or reliability and a full 5kg/11lbs washing capacity you lose nothing. What you gain is space and freedom.

A8582 ECOLOGIC 1300 WASHER DRYER

Washer *dryers*

ECOLOGIC 1300 WASHER DRYER

A8582 ECOLOGIC 1300 WASHER DRYER

A8584 ECOLOGIC 1300 WASHER DRYER

The Hoover tumble dryer is more than just a wet weather friend, you can depend upon it to save time and end draping washing around the home. These reliable, efficient Ecologic tumble dryers have a special cycle to minimise creasing with reverse action tumbling for tangle free drying and even load distribution. And when you tumble to freedom you gain up-to-the-minute features like 'Autosense' to reduce the heat as your clothes dry, a choice of different drying levels and smooth, precise fingertip selection of drying times. From the Autosense model to the Computer Ecologic Sensor these stylish, dependable dryers have a host of features designed to make life gentle on your clothes and kinder to the environment. And, for a completely clean break from laundry chores why not add a stylish made-to-match automatic washing machine?

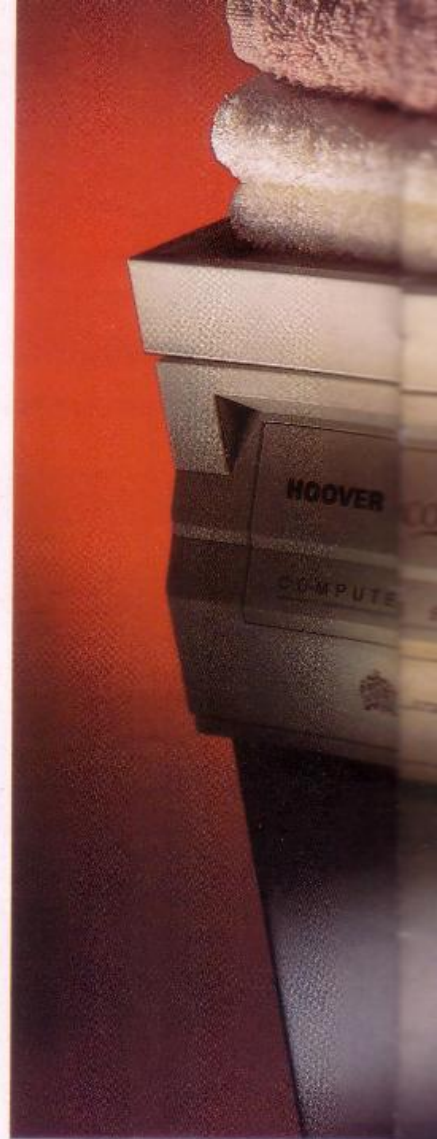

Ecologic tumble dryers have a compatible washing machine for stacking or matching side-by-side.

Most tumble dryers are available in snow white or harmony beige.

Large load capacity on all our Ecologic tumble dryers.

D6726 ECOLOGIC DRYER DE LUXE CONTROL PANEL

Full of useful features from the 'programme end' and 'check filter' signals to reverse tumble action, 'Autosense' and the accurate programme selection wheel. There is even a double 'Creaseguard' which tumbles the load in cool air for the last 10 minutes and then intermittently for over an hour until you are ready to unload. The dryer can also be paired with the Ecologic 1300 washing machine.

COMPUTER ECOLOGIC SENSOR DRYER

D6730 COMPUTER ECOLOGIC SENSOR DRYER

- Electronic sensor for precise and economic drying
- Simple one touch controls
- Four levels of dryness
- Choice of three load types
- Reverse action for even distribution
- Double 'Creaseguard' action
- 'Check filter' visual and audible warning
- Audible programme end signal
- Insulating double glazed door
- Safety door interlock
- Large 4.5 kg / 10 lb load
- Free 5 year parts guarantee
- Customer care charter

Being of like mind, it's the perfect partner for the Computer Ecologic automatic. Choose any of three programmes and four drying levels and it automatically senses when your load is dry enough for the cupboard, rotary dryer, steam or dry iron. It even informs you of the drying phase reached.
